

FinPulse AI — Hackathon Strategy Pack

WINNING
BLUEPRINT

Work in Fintech AI Summit 2026 | NatWest Conference Centre, London

Core Brief Challenge: "A generation gets its financial education from TikTok. Build something better. Build the app that makes young people confidently financially capable — across financial health, saving, investing, crypto and AI. The one the banks should have built."

🎯 1. The 40/40 Scorecard Strategy

Cluster	Target Score	Winning Execution
1. Idea & Insight	10 / 10	Pitch built around persona Maya (21) , confused by emergency tax on her first payslip while targeted by 100x leverage trading ads on TikTok/IG.
2. Product & Execution	10 / 10	Live interactive web app featuring multi-platform BS Scanner (TikTok, IG, YT, X), UK Payslip Decoder, and 5-Year Compound Risk Sandbox.
3. Business & Reach	10 / 10	B2B2C Model: Free for young users. Funded by UK Banks via FCA Consumer Duty compliance budgets and Employers.
4. Delivery & Pitch	10 / 10	90-second live working demo + Y-Combinator style 5-minute pitch with user iteration evidence.

🚀 2. Product Features & Modules

Multi-Platform BS Scanner

Paste viral claims from TikTok, Instagram Reels, YouTube Shorts, or X. AI rates scam risk (0-100%), flags affiliate profit traps, and shows plain-truth math.

UK Payslip & Salary Decoder

Demystifies PAYE income tax, National Insurance, tax codes (1257L, BR), student loans, and highlights **free employer pension match money**.

"Investors Not Gamblers" Sandbox

5-year compound growth simulator comparing diversified index ETFs vs high-leverage meme coins, featuring a Market Crash stress test.

FCA Consumer Duty Bank Portal

Demonstrates how partner banks (NatWest, Barclays, Monzo) view audit-verified customer financial literacy metrics to satisfy FCA regulations.

3. Commercial & Business Model (Who Pays?)

The Payers vs. Users Alignment:

1. **UK Banks & Building Societies** pay SaaS licensing fees out of mandatory FCA Consumer Duty education budgets.
2. **Employers & Corporates** pay as a Gen Z employee financial wellbeing perk to reduce workplace money stress.
3. **Parents (under 18s)** pay a modest family subscription for youth financial capability building.

4. 5-Minute Pitch Sequence

1. **0:00 - 0:45 | The Persona (Maya, 21):** Bring a real person into the room suffering payslip tax confusion & TikTok financial hype.
2. **0:45 - 2:15 | 90-Second Live Demo:** Scan a TikTok forex ad -> adjust UK payslip salary slider -> trigger market crash test.
3. **2:15 - 3:15 | User Testing Iteration:** Show how 3 user tests with 18-25s helped iterate static graphs into interactive risk sandboxes.
4. **3:15 - 4:15 | Business Model:** Explain FCA Consumer Duty bank funding.
5. **4:15 - 5:00 | Vision Close:** "Duolingo made 500M people learn languages for fun. FinPulse AI makes a generation financially invincible."
